- 13. Notes to the Accounts
- 14. Acknowledgements

1. Introduction from the Chair

For fifty years, CSV has been proud to help people take an active role in their communities and we remain committed to that mission. Like many other third sector organisations we have been affected by the economic climate, and the cumulative impact of the related financial consequences has meant CSV has had to make some difficult decisions over the past year.

It was with great sadness that we closed the majority of the Learning division on 31 July 2014. Reduced funding and the inability to invest in our offering had meant the Learning Division delivered significant losses over a number of years and, if we had not taken action, the consequences for the Charity as a whole could have been very serious indeed. The remaining sole subsidiary of the Group, Springboard Sunderland Trust, made the decision to leave the Group at the end of the financial year.

As a result of the closure of the Learning organisation we have been able to sell a number of London properties. In addition, we have also sold our head office at King's Cross, which was no longer fit for our purpose. These sales have generated a significant cash reserve. We are in the process of refurbishing our building in Hackney, the Levy Centre, which will become our new headquarters, and both staff and trustees are looking forward to the move in early November.

The cash generated from these sales means we have been able to repay all of our bank debt and, in addition, make a significant contribution (£2.2 million) towards our deficit in the London Borough of Islington (LBI) Government Pension Scheme. There is more work to be done to reduce our pension deficit and we are actively working with LBI to plan our longer term strategy in relation to the scheme.

I am therefore pleased to report that CSV has entered into the 2014/15 financial year, wholly focused on its core mission of volunteering and in a much stronger financial position than in recent years.

I want to take this opportunity to thank the committed group of Trustees who have devoted so much time and energy to refocusing the charity in the face of extraordinary financial circumstances. In addition, I would like to record my sincere thanks to Lucy de Groot who led the organisation through this difficult time and wish her well in her retirement. I would also like to wish our new Chief Executive, Oonagh Aitken, well in her new role. I know that she will lead our dedicated team of staff and volunteers with passion and commitment as CSV embarks upon its next 50 years. Furthermore, I also want to take this opportunity to thank each and every one of CSV's staff and volunteers who have continued to work hard through challenging times. Finally, I would like to express my appreciation to our President, Lord Levy, for his staunch support during what has been a very difficult year.

Sir Jon Shortridge Chair of the Board of Trustees

2. Report of the Board of Trustees

The CSV Group comprised CSV - the parent charity - and its subsidiary, the Springboard Sunderland Trust (SST). Throughout the year it was focused on two distinct charitable activities:

- social action and volunteering
- learning, skills and training

The Springboard Sunderland Trust subsidiary, a separate charitable company, focused exclusively on learning, skills and training work. This annual report covers the entire CSV Group accounts. Performance reporting is based purely on the activities of the CSV charity. Springboard Sunderland Trust will report on their 2013-14 performance independently. As previously stated Springboard Sunderland Trust left the group on 31 July 2014.

The 2013-14 financial year covered the period from 1 August 2013 to 31 July 2014. In future, the CSV financial year is likely to return to a March year-end.

The year has been dominated by the strategic review of the capacity and resources required to sustain the charity. In recent years the CSV Group has faced a very difficult financial situation made more acute by the loss in 2010-11 of the £1.1m Cabinet Office Strategic Operating Grant. Over the past three years the Charity has improved performance and made reductions in the level of the deficit; however, the overall level of financial risk the Group faced remained too high. In addition, the Group had minimal reserves, no independent income streams and carried a significant pension deficit. reported in the last period's accounts in August 2013, at the start of the current financial year Trustees took action to secure a sustainable future for the charity. intensive analysis, and after receiving professional advice, the Trustees took the fundamental decisions required to ensure the continuing solvency and viability of the charity. These included the closure of all the direct CSV learning operations from 31 July 2014 (at the end of the learning contract year), the sale of the HQ Kings Cross property and the decision to sell all other freehold properties except Hackney, in order to release resources to cover the costs of closure and to reinvest into making the charity viable. Trustees also agreed to separate from Springboard Sunderland Trust. Following detailed negotiations, and with CSV undertaking parallel discussions with the LBI Pension Fund, CSV and SST came to a legal agreement to separate. As part of this, SST made a payment of £700k towards its portion of the pension deficit. The agreement was signed in July, and SST became a separate charity from 31 July 2014. The result is a sustainable CSV which is focused on Social Action and Volunteering which we forecast will generate income of between £8 - £9m in a 12 month financial year.

The charity's results for the year reflect the intense period of transformation. The positive movement in Group net funds of £3,150,000 has been driven by the sale of properties with underlying results analysed as follows:

	<u>£000's</u>
Net movement in funds	3,150
Less property disposals	5,621

Deficit before property disposals	(2,471)
Pension adjustments	
FRS17 actuarial adjustment	(24)
Deficit payments	(540)
Actuarial gain	976
Net adjustment included in above	412
Overall result (restricted & unrestricted)	(2,883)
Made up of:	
Learning and transformation costs (including Learning closure)	(3,005)
Property sale costs (assumed netted from proceeds)	(144)
Social Action & Volunteering	(13)
Increase in restricted funds	279
	(2,883)

During this period we have addressed a number of "one-off" transformation costs associated with the closure of Learning and the restructure of the Charity to its smaller, sustainable, base. Costs of £1.625m were incurred by The Group of which £1.5m was incurred by the Charity. The Social Action and Volunteering division of the Charity has, once again, delivered a broadly breakeven position in the year (£13k deficit). This underlines the appropriateness of the long term decisions made during the year to focus on our core volunteering mission.

Reserves Policy

The charity's Reserves Policy will be formally reviewed and re-established during the next financial year as the transformation process comes to an end.

Risk Management

The revised operating model is not without its risks and the top three are summarised below:

- CSV's pension deficit. Although we have made a large deficit payment this year and are not scheduled to make any further deficit payments until 2017, this remains the Charity's biggest risk in the future and we are actively planning our mitigation strategy.
- 2. The key elements of the transformation have been successfully delivered. However, there is a significant amount of work to be done to embed the new processes and ways of working into the organisation. This will be a continued focus for the senior management team over the coming months.
- 3. The last key risk relates to the on-going delivery of revenue. In order for the organisation to be sustainable, annual income must be in the region of £8-9m, and each project must contribute an amount to core costs (which could be up to 20% of total contract value). We have implemented a number of systems and processes to

manage our pipeline of revenue and, at this stage, we remain confident this can be delivered.

The Risk Register is reviewed by both the Audit and Finance Committees, and both Trustees and the Senior Management Team are actively planning mitigations to ensure the future success of the organisation.

Going Concern

The CSV Council has overseen the implementation of the transformation plan agreed in February 2014. CSV has generated sufficient cash resources through the rationalisation of its property portfolio. This, together with the significant restructuring, has enabled the charity, which is now focused on its core values of social action and volunteering, to be financially viable for at least the next 12 months from the signing of these accounts.

Strategic Report

CSV's Mission, Vision and Values

- CSV's vision is of a society where everyone can participate to build strong and inclusive communities.
- CSV's mission is to enable people to take an active role in their communities.
- CSV is underpinned its values of inclusion, quality, learning, flexibility and valuing people.

Our Approach

In 2013-14 CSV was the UK's leading **volunteering** and **learning** charity with over 50 years of experience running volunteer programmes. We enabled volunteers to make a difference by supporting families in difficulty, children at risk of harm or neglect, young people leaving care, disabled and vulnerable adults and older people. We provided learning opportunities for young people and adults to enhance their education and skills and improved their job prospects.

Social justice is at the heart of what we do. Acting both **locally** and **nationally**, during this 12 month period CSV delivered 81,437 volunteering and 2,523 learning opportunities and supported 185,506 beneficiaries.

Our Strategic Aims are:

- To help people achieve their potential by being the provider of choice for volunteering and learning.
- To work with individuals and communities in responsive and innovative ways to achieve positive impact.
- To use our expertise and networks to influence public policy.
- To ensure CSV is sufficiently resourced to continue to build stronger communities for another 50 years.

Our eight strategic priorities for the period were:

1. Support unemployed young people to become engaged and 'job ready'

To enable people to develop skills and gain qualifications that support their future employment by providing learning experiences in a supportive environment that focuses on the individual learner and their needs.

2. Support families in difficulty and with complex needs to turn their homes into secure environments in which children can safely thrive and develop

To increase the number of troubled families matched with volunteers, reducing the number of children on Child Protection and Child in Need Plans, improving outcomes for both children and families.

3. Support young people facing serious challenges in transition, particularly those in and leaving care

To mentor and support young people in and leaving care to ensure they have a positive role model in their lives and someone to turn to in times of need.

4. Engage and support older people

To support older people to help them maintain their independence and wellbeing. We will empower older people to exercise choice and control over their lives through providing opportunities for them to volunteer or to be supported by volunteers.

5. Effectively engage those most excluded and vulnerable

To ensure the most excluded and vulnerable, whether as a result of mental health issues, physical disability, the need for care and support, or personal circumstance, are able to contribute to their local communities or to be supported by community volunteers.

To achieve this we:

6. Gathered robust evidence and impact of what we do

To ensure we record the impact of what we do and are fully accountable to our funders and to the charity's beneficiaries, including our volunteers and learners. We collected evidence of success through external and internal evaluation, which we regularly review and challenge.

7. Ensured that the voices of our beneficiaries, volunteers and learners are heard

To regularly involve our beneficiaries, volunteers, learners and partners through advisory boards, focus groups and questionnaires to ensure their voices are heard. We constantly adapt the ways in which we work to ensure we are genuinely meeting needs and delivering quality experiences. We encourage and support the Retired and Senior Volunteer Programme (RSVP) Advisory Panel and similarly support and encourage young people to have an active voice in CSV's work. We continue to support the Scottish Advisory Board, chaired by a CSV Trustee, and review the potential for a Welsh Advisory Board.

8. Modernised our funding strategy and business models

Following a critical review of our business and operating models, funding and revenue sources and dependencies, we are establishing new ways of developing and sustaining CSV's important work and the essential infrastructure required to

deliver it. This includes: improving our fundraising capacity; seeking to diversify our funding portfolio; and moving towards a better balance between statutory, philanthropic, corporate and other sources of income, to ensure that CSV retains the financial viability required for the effective delivery of its work.

During 2013-14 CSV:

- Provided learning opportunities for young people and adults to enhance their skills and improve their job prospects.
- Enabled **older people** to share their skills, knowledge and life experience to benefit communities.
- Improved the lives of **children** and **families** at risk of neglect or harm through volunteer support.
- Empowered **disabled people** to lead independent lives.
- Provided positive support for young people through **mentoring** and **befriending** schemes.

Achievement, Performance and Impact

Summary

This year covers the 12 months from 1 August 2013 to 31 July 2014. This is in contrast to the previous 2012-13 Annual Report and Accounts which covered a sixteen month period, April 2012 to July 2013.

On 31 July 2014, the CSV Group employed 345 people, including 107 at the Springboard Sunderland Trust. CSV operates in Scotland, Northern Ireland, Wales and England.

During 2013-14, CSV engaged **81,437 volunteers** and **3693 learners**. Our volunteers supported **185,506 beneficiaries** including families in difficulty, children at risk of harm or neglect, young people leaving care, disabled and vulnerable adults and older people (this does not include the Springboard Sunderland Trust).

Summary CSV volunteers and learners

	Achieved 2013-14 (12 months)	Achieved 2012-13 (16 months)	Achieved 2011-12 (12 months)
Volunteers involved	81,437*	165,076	148,368
Learners trained	3,693	6,580	5,416
National campaigns	2	3	3

^{*} This year our 'volunteers involved' figure does not include any figures from our national campaign, Make a Difference. In previous years we did include a figure which constituted approximately 70,000 of the total volunteers involved. In October 2013, the Make a Difference campaign focused on publicity to inspire people to volunteer, working with a wide range of partners including charities, private companies and public sector organisations. This publicity campaign to inspire people to volunteer was estimated to reach 7.3 million people through local radio publicity.

Increasingly we are keen to measure beneficiaries as well as volunteers. In many cases, because of the way CSV works, they may be the same; for example, with our Hackney

Positive Futures youth volunteering project and the peer-led Retired and Senior Volunteering Programme (RSVP).

In this 12 month period, we supported 185,506 beneficiaries, which included vulnerable families, children at risk of harm or neglect, young people in and leaving care, isolated older people and disabled people.

Activities

In line with the objectives and outcomes listed in the 2013/14 Strategic Plan, during the period 1 August 2013 - 31 July 2014 the following activity has taken place under CSV's four strategic aims:

1. To help people achieve their potential by being the provider of choice for volunteering and learning

During this year, 81,437 volunteers were recruited, supported and enabled to play an active part in their communities.

As in previous years, CSV locally recruited and trained volunteers to mentor, support and befriend people from our priority impact groups – young people, vulnerable individuals and families, older people and adults of working age. We also provided learning and training opportunities for young people and young adults at 25 learning centres.

As part of developing the 2013-14 Strategic Plan and improving our impact measurement this year we identified final outcomes for each of the key beneficiary groups. We also have intermediate outcomes, which can be defined as those outcomes that are easier to measure in the short and medium term, and for which there is evidence they affect the final outcomes.

The **final outcomes** we are looking to achieve relate to each of these groups. Young people will become 'job ready' and be better prepared to lead fulfilling adult lives; vulnerable individuals and families will feel less isolated and better socially integrated; adults of working age will have improved social networks and increased skills through learning and social action; and older people will have improved health and well-being. To achieve these outcomes CSV has worked in partnership with a wide range of statutory, charity, private and community organisations.

Young people's engagement

We are extremely proud of the fact that so many young people engage with the charity; some manage their own volunteering projects, some support other young people in a range of different ways; all of them contribute to their communities.

186 volunteers supported **176 children and young people in care** through our mentoring and befriending projects.

155 volunteers were involved in our **13 Heritage Camps** across the UK, of which 59 were international volunteers. Our camps provide unique residential volunteering opportunities for young people aged 16-25. 34 young volunteers gained a Duke of Edinburgh award.

257 young people took part in our **National Citizen Service** (NCS) activities, double the number from the previous year. Activities took place in Yorkshire and the Humber and in the North East of England. Our programme combined social action projects with residential experience.

464 volunteers took part in our **Full-Time Volunteering** programme. Support was provided to families with children with disabilities, young people at risk of offending, individuals with additional needs, isolated older people, disabled students and school children.

Hackney Positive Futures supported **336 young volunteers** to develop and run their own projects supporting other young people to volunteer at CSV and with other organisations in Hackney. 52 of these young people gained accreditations. The project is supported by Hackney Council as part of the wider youth programme.

119 children were provided with a voice at Child Protection Conferences and Social Care meetings through CSV's **independent advocacy** support via 40 trained volunteer advocates in Derby. Through our advocacy work, 9 children sat on the Derby City Council Children in Care Council which feeds into the council's Corporate Parenting Board - a group of councillors and senior managers who influence change across children's services.

CSV's Play Rangers in Bristol, led by 50 volunteers, ran weekly outdoor play sessions and activities for **800 children**.

CSV **Media Action** in Northern Ireland provided training and work experience for 36 young unemployed people. The project linked the young people with BBC departments, enabling them to gain insight into working in the media sector.

Vulnerable Individuals and Families

Our volunteers do a wonderful job supporting families and vulnerable people in so many ways; some offer practical support, some work directly with parents, some offer emotional support; all of them support families in their communities.

936 volunteers supported **757 families and 1051 children**, compared to 454 and 952 respectively in 2012/13, through our groundbreaking **Volunteers Supporting Families (VSF)** programme. Over this 12 month period we began 7 new VSF projects in 7 new local authority areas in England, increasing our total number of projects to 12. Through this innovative programme CSV enables families to build stronger foundations and helps children and young people grow up in a safe and happy family environment. Through the VSF programme 84% children from families supported by a CSV volunteer came off their statutory Child in Need plans.

With the support of **The Royal Foundation** and **The True Colours Trust**, and in partnership with Children's Hospices Association Scotland (CHAS) and East Anglia's Children's Hospices (EACH), CSV have begun an innovative new programme recruiting and deploying trained volunteers who support families with children with life limiting and life threatening conditions in their homes.

562 disabled people were empowered to volunteer by **355 volunteers**, some of them full time on CSV's 3 Supported Volunteering schemes across England.

CSV's UPwards project in Bradford, funded by the Big Lottery Fund, provided **87 volunteer mentors** to **110 adult offenders** to support them to reintegrate into their communities and to rebuild employability skills and confidence.

Our **Assisted Gardening** scheme, in partnership with Bristol City Council, helped **80 unemployed young people** gain valuable new skills through transforming 300 gardens for older, disabled and vulnerable people. Through this scheme young people gain a nationally recognised qualification in horticulture.

Older People

Our Retired and Senior Volunteer Programme (RSVP) is a well-established volunteer-led and managed programme responding to local needs across the UK. It is unique in the range of programmes our volunteers offer. Below are some examples of projects which engage older people as well as improving the mental and physical health of both volunteers and beneficiaries.

- Opportunities to socialise at coffee mornings and afternoon teas
- Lunch clubs
- Craft and cookery classes
- IT groups
- GP and hospital driving schemes
- Involvement in care homes
- Reading schemes in primary schools
- Intergenerational skills swaps

This year saw 15,592 active senior volunteers and 370 volunteer organisers, who have provided a more accurate picture of our numbers of older volunteers. RSVP volunteer organisers across the country engage directly with other older volunteers and beneficiaries, and develop and organise a wide range of activities in their community. This is a powerful and cost-effective peer-to-peer model, providing mutual benefit to the volunteers and beneficiaries, and promoting active citizenship and improving health and wellbeing amongst older people. In this period, 92% of volunteers felt less isolated and

85% reported improved health. 92% volunteers felt they had made a positive contribution to their community.

Through a generous donation from an anonymous philanthropist RSVP will be able to develop many more projects in new geographical areas over the next three years.

Employee Volunteering

CSV is proud of its reputation, as well as the depth and breadth of employee volunteering opportunities it can provide for corporates. From team challenge events to school reading and literacy schemes, the EV staff can tailor a volunteering package to any company requirement.

CSV provided **5472 employee volunteers** from major companies with opportunities to volunteer in the community and with local charities. CSV worked with 32 employers to provide 34,734 volunteer hours of support to **26,672 children** and young people and **15,298 disabled people**.

Our employee volunteering programmes saw employees from corporates, such as Deutsche Bank and The Co-operative Group, provide reading and mentoring to school children and young people. Other companies, such as KPMG and Deloitte, provided support to their local communities through both practical activities and skills-based team volunteering.

Learning (excluding Springboard Sunderland Trust)

The performance reported below covers **CSV's Learning** operations which were delivered from 12 learning centres across England.

Throughout this year, CSV Learning worked extensively with learners across the 12 Learning centres as well as in multiple work experience and employer premises. **CSV Learning supported 3693 young people and adults**, many of whom were furthest from the labour market, had multiple barriers to learning or were vulnerable. Working under subcontracted provision, funded through the Skills Funding Agency (SFA) and direct funding through the Education Funding Agency (EFA), as well as with schools, local authorities, colleges, other training providers and the Department of Work and Pensions (DWP) and the European Social Fund (ESF), CSV engaged the following number of learners in its different areas:

Total number of learners engaged	3693
Number of learners enrolled on EFA Study Programme courses	418
Number of Apprenticeships	253
Number of learners enrolled in Adult Skills courses	3022
Number of qualifications gained – certificates claimed	5000
Number of hours delivered through learning activities	513,327

As described earlier in the report, during the year CSV Trustees regretfully had to announce the closure of CSV's Learning operations at the end of the contract year, July 2014. CSV worked hard to continue to support as many young and vulnerable people as possible until it closed its doors on 31 July 2014. Despite the closure being announced in March 2014, CSV Learning continued to maintain its commitment to all the learners on programmes and also to those who still wanted to learn and complete their qualifications by 31 July 2014. Some learners have been able to continue their apprenticeship provision through other organisations after the end of the year.

CSV has chosen to maintain a Learning presence in its Ipswich operation for the next contract year (August 2014 to July 2015). Programmes will be limited to meeting the needs of the Suffolk region. They will focus on EFA funded study programme activities (previously known as foundation learning) for young people aged 16-18 who are not in employment, education or training or who are undertaking alternative provision from their normal school programme.

Community engagement

CSV tries to work at the heart of communities to give volunteers the opportunity to contribute to strengthening their local communities. We believe that everyone has something to give and will also gain personal fulfilment from community and social action.

Through CSV's Time2Give scheme, in partnership with Kent Libraries, **2355 volunteers** provided **33,000 hours** of their time to help promote library services in schools, support adult literacy, help customers use library computers and delivered books to homebound people promoting reading and learning across the community.

The **Red Route Café** in Hackney, London, was established in June 2013 with generous support from a donor; it is located in the same building as other CSV activities and continues to develop. The café is a not-for-profit social enterprise that helps local young people gain employability skills. In 2013-14 we recruited 14 trainees and one apprentice to support with the running of the café. These individuals learnt business, team working and communication skills which helped them with future employment.

CSV's **Action Earth** campaign in Scotland is a small grants scheme for community based environment projects funded by Scottish Natural Heritage. This year **5691 volunteers** took part in a range of activities aiming to get people living in disadvantaged areas more involved in local green spaces.

2. To work with individuals and communities in responsive and innovative ways to achieve positive impact

During the period, **31,599 people** were engaged through CSV's **partnership with BBC local radio**, covering the whole of England. Stripping it Bare - a project using volunteers as Health Champions to break down the taboos surrounding mental health, sex education for the over 50s, and embarrassing illnesses such as bowel and prostate cancer - was launched in July 2011 and continued successfully over this period.

The Professionals, funded by the **Social Action Fund** grant (Office of Civil Society/Cabinet Office) began in April 2012. The project matches volunteers who have professional skills with local organisations that work with children and young people.

Organisations range from community groups to schools to local charities. The programme encourages people to give knowledge or specific skills to the communities they serve in and motivate businesses to promote active retirement of their staff. **10,637 professional volunteers** were recruited and encouraged to share their skills with local communities.

In December 2013 the grant was extended with a further £498,986 until March 2015. This extension has enabled CSV to develop its RSVP operations, the existing Professionals programme, the Grandmentors programme and its work with the Department of Health Strategic Partners.

CSV's Newcastle Volunteer Centre worked with **329 organisations** in the North East to support them with developing volunteering and corporate responsibility programmes for their employees. The volunteer centre supported **3119 people** to volunteer in their community.

CSV's **Make a Difference** campaign took place in October 2013 for the eighteenth year. There was no external funding for this programme which underlines CSV's commitment to raising the profile of volunteering. Our 2013 Make a Difference campaign focused on inspiring people to volunteer.

CSV is committed to actively involving volunteers and users of our services in our work through our Retired and Senior Volunteer Programme (RSVP) Advisory Board.

3. To use CSV's expertise and networks to influence public policy

CSV continues to provide the chair and coordination of **National Network for Volunteer Involving Agencies** (NNVIA). NNVIA has more than 80 major national charities as members, and more than 2 million volunteers organised across the network covering a wide variety of causes and issues all linked by volunteering. The network is recognised as an effective vehicle for influencing the development of public policy issues as they relate to volunteering and engaging with Government initiatives and policy developments to drive benefits for the volunteering sector.

CSV has been a member of the **Health and Care Voluntary Sector (VCS) Strategic Partners Programme** since April 2013. The Programme is a national strategic partnership of 22 voluntary and community sector organisations and consortia, working with the Department of Health (DH), NHS England (NHSE) and Public Health England (PHE) to improve health, wellbeing and care for all (but particularly the most excluded members of groups in our communities) and reduce health inequalities.

CSV received £200,000 for its work for the programme in 2013/14 and has been successful in securing £191,000 to continue this work during 2014/15. The various activities funded by this work support CSV's strategic aim of influencing public policy and promoting awareness of the importance of volunteering and social action as effective interventions in improving individual and community health and wellbeing, and in helping to meet the priorities of the health and care system.

Throughout the period, CSV has actively participated in and contributed to the following groups and networks:

- The Prime Minister's Dementia Friendly Champions Group
- The Age Action Alliance
- The Disability Action Alliance

- Think Local Act Personal (TLAP)
- The Care Quality Commission (CQC) and Regional Voices (the national partnership, with 9 regional networks in England which connects to 25,000 local voluntary and community sector organisations).

CSV continues to provide the secretariat and support for the Capital Volunteering Legacy Fund, which promotes the social inclusion of people with **mental health issues** through volunteering. The Fund is supported by an advisory panel of people with a lived experience of mental health issues.

Following a seminar on civil society at a time of austerity in April 2013, Lucy de Groot has chaired the **Call to Action for the Common Good Working Group.** This involves both civil society colleagues and other opinion leaders. With six months support from Carnegie Trust UK, the group employed a consultant who helped organise two parallel seminars focusing on the implications of a Common Good approach for (1) older people and (2) young people. He also prepared the report which was published in June 2014. The report outlined the core Common Good rationale required to deliver positive outcomes in the face of deep-seated social and demographic issues. It identified three key principles underpinning the development of a positive narrative for change; investing in the future, everyone 'doing their bit', and getting connected. The Call to Action is conceived as a long-term campaign and intends to develop partnerships and funding from across sectors.

CSV has continued to provide the Chair and Secretariat for **Volonteurope**, hosted and supported by the European Office. Volonteurope activities promote volunteering, active citizenship and social justice. The 22nd Annual Volonteurope Conference and the 7th **Active Citizens of Europe Awards** were held in Bucharest in November 2013. The event fostered debates on socio-political, cultural, economic and policy issues, bringing over 140 participants from across Europe.

In the UK, together with NCVO, we led the **National Alliance for the European Year of Citizens** 2013 and at a European level we were coordinating partners in the European Year of Citizens Alliance (EYCA) in the development of political recommendations of the European Year 2013, presented to the European Commission at the EYCA Closing Conference in Lithuania in December 2013.

We commissioned and launched the Volonteurope Report on 'Social Inclusion: the Citizens' Journey through European Years' (November 2013), a major piece of research and recommendation-setting that built on the achievements of CSV and Volonteurope, and wider European civil society, during the European Years of 2010, 2011, 2012 and 2013. The report was quoted by the European Commission officials during the EYCA Closing Conference, an important recognition of CSV's and Volonteurope's work.

We secured a four year strategic operating grant of 155 000 euros per year from the European Commission's 'Europe for Citizens' Programme, which enables us to continue developing the European work for CSV and Volonteurope's members, and implement a range of Europe-wide campaigns, tackling issues such as social exclusion of youth, breakdown of communities, rural isolation of citizens, as well as rolling out the 'Common Good' campaign across Europe.

4. To ensure that CSV is sufficiently resourced to continue to build stronger communities for another 50 years

The robust review and transformation of the charity undertaken during the year confirms CSV will have a viable future focusing on its core social action and volunteering activities. This involves 80,000 volunteers active in their local communities, helping families in difficulty, children at risk of harm or neglect, young people leaving care, disabled and vulnerable adults, and older people.

Public Benefit

The Trustees have referred to the guidance provided by the Charity Commission on public benefit when reviewing the charity's aims and objectives and in planning its future activities. In particular, the Trustees consider how planned activities will contribute to the aims and objectives that have been set. The Trustees have complied with the duty under the Charities Act 2011 to have due regard for the public benefit guidance published by the Commission.

3. Message from the Chief Executive – View of the Future

CSV has undergone a major transformation over the last 12 months. As was reported last year, with the formal assistance of our financial advisers, PWC, and our legal advisers Veale Wasbrough Vizards LLP (VWV) and the Transformation Committee, chaired by Sir Jon Shortridge KCB, Trustees and Directors have worked tirelessly to create a financially stable and sustainable charity. The closure of CSV's learning operations (with the exception of

our learning programme in Ipswich) and the disposal of our property assets has allowed us to re-launch a smaller, more tightly managed organisation based on the social action and volunteering part of the charity. A new senior leadership team is now in place, and we are in the process of developing a new strategic plan which looks ahead over the next three to five years. This strategic plan will also contain a refreshed statement of our mission, vision and values. CSV's governance framework will also be refreshed, including the appointment of several new trustees,

I am delighted to have been given the opportunity to head up an ambitious charity in which Trustees and Directors share values and objectives. With a view to the future, we have already spent some time together working on our organisational values and culture, and we will be engaging with staff around these in the coming months. Our focus will be on internal and external communications; finding improved ways to promote and position our organisation as a nationally recognised provider of specialist volunteering services, and the number one partner for other organisations wanting to grow their volunteering base.

We will set realistic targets for managed growth; we will continue to develop and define our business themes; we will grow our major donor base and continue to work with our many corporate partners, not only through employee volunteering but also in new ways. Our major beneficiary groups will still be young people, older people, disabled people and families. We are committed to grow and develop projects and programmes in all of these areas with a specific focus on improving the health and wellbeing of older people, building

the confidence, resilience and employability of young people, breaking down the barriers to disabled people volunteering and playing an active part in their communities, and helping families with complex needs to stay together.

We will focus on business development and income generation, nurturing our relationships with government departments, local authorities, trusts and foundations. We continue to bid for and win grants from the Big Lottery Fund; we are proud of the confidence placed in the organisation and our track record in this area. Public finances are challenging and budget reductions will continue for the foreseeable future, and although we receive funding from a very wide range of sources, we will have to keep up the momentum on income generation. The appointment of a new Director with a focus on this area of work will provide strategic direction and focus for the entire organisation.

To date, we have not had the resources to modernise our digital presence, brand renewal or volunteer relationship management. This is a priority for the next period. The transformation work has put the need to focus on this into stark relief. Trustees and Directors will work together on the rebranding and promotion of the new organisation. CSV will refresh its web presence in early 2015 and this will offer the opportunity to the charity to engage with volunteers and supporters in a modern and agile way. Work on database management will equally allow us to develop a new volunteer journey and to keep in touch with our volunteers and supporters.

We will continue to provide national leadership in the volunteering sector through the national network of volunteer involving agencies (NNVIA) and European leadership through Volonteurope and our work in other European networks. We will continue to contribute to policy development through our engagement with national sector bodies and through partnership with other charities.

I also want to add my thanks to the Trustees who have been committed and engaged throughout the transformation process, to our supporters and funders, and finally to the staff group who have maintained 'business as usual' during a difficult period.

The need for social action and volunteering has never been greater. Our focus will continue to be on giving everyone the opportunity to play an active part in their community. We believe that everyone can do extraordinary things to make a difference. This is at the heart of our mission as a charity.

4. Structure, Governance and Management

CSV was founded in 1962 as an unincorporated charity. The present legal structure is a charitable company limited by guarantee, incorporated on 10 July 1979 and registered as a charity in England and Wales on 22 February 1985. By the start of this financial year in August 2013, the four London Springboard subsidiary charities had been combined within the main CSV charity with their staff, assets and liabilities transferred to CSV. Therefore, during this period CSV had only one active subsidiary charitable company Springboard Sunderland Trust (SST). These accounts cover both CSV and Springboard Sunderland Trust which taken together comprise the CSV Group. From 1 August 2014 the two charities separated. CSV is a registered charity in Scotland.

CSV was set up under a Memorandum of Association which established the objects and powers of the organisation and is governed under its Articles of Association. The Council

of Management of CSV (the Council) are the charity's trustees and are responsible for the governance and establishment of operating policies across the CSV Group. The Council also has responsibility for the control and monitoring of the application of these policies. CSV Advisory Council members (previously known as Trustees, but this title was changed at the November 2011 AGM to avoid confusion with the formal charitable trustee governance role) elect, from among their number, persons to serve on the Council in accordance with the Articles of Association. All the members of the Council are statutory directors and charity trustees. None of CSV's statutory directors received any emoluments in respect of their services to the company (2013: £nil).

In the autumn of 2013, as a result of the extensive discussions on the future of the charity, two of the CSV Trustees who were also Trustees of Springboard Sunderland Trust (SST) resigned from Springboard Sunderland to ensure there was no suggestion of a conflict of interest. The third CSV Trustee resigned from CSV to become the Chair of the Springboard Sunderland Trust. Further independent trustees were appointed by Springboard Sunderland with the agreement of CSV. CSV remained the sole member of SST until the separation in July 2014.

The year has seen extensive activity by the Trustees in overseeing the major changes across the Group. The Board committees are as follows:

The Audit Committee, Chair: David Wilkinson, has clear terms of reference covering all areas of external audit, internal control and systems, and risk. It is required to 'oversee all systems, controls and processes that may have an impact on the charity's ability to meet its objectives'. Specifically, the Audit Committee ensures that:

- i) effective audit functions are in place (both external and internal)
- ii) adequate risk management processes are in place and
- iii) an adequate internal control environment is established

The committee continues to benefit from the involvement of an independent Trustee with substantial finance and charity experience. The Audit Committee remains very active in overseeing the CSV Group risk register, which is also reviewed by the Council and is monitored regularly by CSV's Directors Team. Given the uncertainties in the financial situation faced by the charity during this period and the degree of external and internal change being managed by the Executive, the Audit Committee has played an important role in keeping Council apprised of the risks to be managed. The Council believes that appropriate systems are in place to mitigate the major risks to which the Group is exposed.

The Finance Committee, Chair: Sir Jon Shortridge, has met every month between the quarterly Council meetings and is responsible for the financial oversight of the Charity. The Finance Committee has been considering regular reports on performance, financial results, cash flow, debtors and creditors. Particular consideration was given to the two major creditors the London Borough of Islington Pensions Scheme and CSV's bank. The Finance Committee received all the externally commissioned professional finance, property and legal advice, and reviewed and agreed upon the options for the changes needed to make CSV a sustainable going concern.

Human Resources and Remuneration Committee, Chair: Rolande Anderson, now incorporates the Pensions Committee and is responsible for setting the high level strategy with regard to pay, pensions and other HR matters. The Committee has revised its terms of reference and has, in the last few months, taken an active role in overseeing the

process for updating all of CSV's key policies and human resources procedures, as well as setting out a programme for a future review of pay and remuneration for the new charity. During the year the Human Resources Remuneration and Pensions Committee also considered the NCVO Report on Chief Executives' pay policy.

Transformation Committee, Chair: Sir Jon Shortridge, during the year and for a time-bound period only, CSV set up a Transformation Committee with clear Terms of Reference to provide regular oversight to and monitoring of the Transformation activity. The Committee met by teleconference on a weekly basis and were joined on these calls by legal and financial advisers providing specific and detailed guidance where required.

The day to day operational responsibilities for the CSV Group are devolved by the Council to the Chief Executive, the Directors and operational managers, who remain responsible to the Council for all aspects of the Group's performance. From November 2013, the Directors Team consisted of a Joint Director of Social Action and Volunteering and Policy, Fundraising and Communications; the Managing Director of Learning and the Director of Resources/Chief Operating Officer. The previous Director of Learning retired in September 2013 after over thirty years with the charity.

5. Reference and Administrative Details

For the period from 1 April 2013 to 31 July 2014

Company reg. no. 1435877

Charity reg. no. Registered in England and Wales as a charity, number 291222

6. Statement of Council's Responsibilities

The Council (which comprises the directors of CSV for the purposes of company law and the Trustees for the purposes of charity law) are responsible for preparing this Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the Council to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company, and the Group, and of the incoming resources and application of resources, including the income and expenditure, of the charitable company and Group for that period. In preparing these financial statements, the Council members are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume the charitable company will continue in operation.

The Council are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure the financial statements comply with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and the Charities Accounts (Scotland) Regulations 2006 (as amended). They are also responsible for safeguarding the assets of the charitable company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Insofar as the Council are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- Council members have taken all steps they ought to have taken to make themselves aware of any relevant audit information and to establish the auditors are aware of that information.

The Council are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Auditors

Sayer Vincent LLP were reappointed as auditors during the period and have indicated their willingness to continue in that capacity.

The report of the trustees, which includes the strategic report, have been approved by the council on 17 November 2014 and signed on their behalf by:

Sir Jon Shortridge, KCB Chair

7. Independent Auditors' report to the Council and Members of CSV

We have audited the financial statements of CSV for the year ended 31 July 2014, which comprise the group and parent charitable company statement of financial activities, the group and parent charitable company balance sheets, the group cashflow statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the charitable company's members and Council, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005. Our audit work has been undertaken so that we might state to the charitable parent company's members and Council those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's members and Council as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Council and auditors

As explained more fully in the statement of Council's responsibilities set out in the report of the Board of Trustees, the Council (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

We have been appointed as auditor under section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with regulations made under those Acts.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent charitable company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Council; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the report of the Board of Trustees including the Strategic Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- Give a true and fair view of the state of the group's and the parent charitable company's affairs as at 31 July 2014 and of the group's incoming resources and application of resources, including the group's income and expenditure, for the year then ended;
- Have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- Have been prepared in accordance with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and regulations 6 and 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended).

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the report of the Board of Trustees, including the strategic report, for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 (as amended) requires us to report to you if, in our opinion:

- The parent charitable company has not kept proper and adequate accounting records or returns adequate for our audit have not been received from branches not visited by us; or
- The parent charitable company's financial statements are not in agreement with the accounting records or returns; or
- Certain disclosures of Council members' remuneration specified by law are not made;
 or
- We have not received all the information and explanations we require for our audit.

8. CSV Charity Financial Overview

Total income, excluding property sales, has decreased from £17.8m (16 month period) to £13.9m, as a result of the move to a standard 12 month financial year.

The surplus on disposal of properties of £5.6m is the result of the sale of CSV's Kings Cross HQ building and its Bristol property. The proceeds of these sales have been used to repay overdrafts and mortgages and as a result CSV is free from bank funding. In addition CSV has made a significant contribution of £2.2m against the deficit held in the final salary pension scheme run by the London Borough of Islington. CSV has also now paid a further £0.7m to the scheme after year end; this being the SST contribution to the deficit upon leaving the Group. Since the year end, CSV has disposed of its property in Bromley and is planning to exchange on the sale of its property on the Old Kent Road. The properties in Islington and Cardiff will be the last two to be sold.

Total expenditure for the period has decreased from £18.9m to £17.3m as a result of the change in accounting periods (from 16 months to 12 months) offset by additional Transformation costs.

The overall net movement in funds of £3.1m is explained as follows:

	£000's
Net movement in funds	3,150
Less property disposals	5,621
Deficit before property disposals	(2,471)
Pension adjustments	
FRS17 actuarial adjustment	(24)
Deficit payments	(540)
Actuarial gain	976
Net adjustment included in above	412
Overall result (restricted & unrestricted)	(2,883)
Made up of:	
Learning and transformation costs (including Learning closure)	(3,005)
Property sale costs (assumed netted from proceeds)	(144)
Social Action & Volunteering	(13)
Increase in restricted funds	279
	(2,883)

The overall balance sheet position has marginally improved from a net liability of £2.2m to a net liability of £2.0m, with the sale of two properties reducing fixed assets, repaying debt and increasing cash balances. As at 31 July 2014 this included a pension liability of £6.7m.

CSV (CSV AND ITS SUBSIDIARY UNDERTAKING) CONSOLIDATED STATEMENT OF FINANCIAL ACTIVITIES

(incorporating an income and expenditure account)
For the year ended 31 July 2014

CSV NOTES TO THE FINANCIAL STATEMENTS For the year ended 31 July 2014

1. ACCOUNTING POLICIES

Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards and the Companies Act 2006. They follow the recommendations in the Statement of Recommended Practice, Accounting and Reporting by Charities (issued in March 2005).

These consolidated financial statements consolidate the results of the parent company (CSV) and its wholly owned subsidiary undertakings, detailed in note 13 of the financial statements, on a line by line basis. Transactions and balances between the parent and its subsidiary undertakings have been eliminated from the consolidated financial statements.

Going concern

The group has generated a surplus of unrestricted funds during the year ended 31 July 2014 of £2.871m after allowing for the actuarial gain. At the end of the period, the implementation of the transformation plan agreed during 2012/13 and group had net liabilities of £1.963m. However £6.663m relates to the defined benefit pension scheme and excluding this, there are net assets of £4.7m. The CSV council have overseen the implementation of the transformation plan agreed during 2012/13. CSV has generated sufficient cash resources through the rationalisation of its property portfolio and the significant restructuring that has enabled a charity focusing on the core values of social action and volunteering to be financially viable for the next 12 months from the signing of these accounts.

Incoming resources

Voluntary income is received by way of donations and gifts and is included in full in the statement of financial activities when receivable. Income from the sale of goods and services is recognised in the financial statements during the period in which the service is carried out and therefore entitlement is earned.

Revenue grants are credited to the statement of financial activities when received or receivable whichever is earlier.

Where unconditional entitlement to grants receivable is dependent upon fulfilment of conditions within the charity's control, the incoming resources are recognised when there is sufficient evidence that the conditions will be met. Where there is uncertainty as to whether the charity can meet such conditions the incoming resource is deferred.

Contract income is recognised in the financial statements to the extent that entitlement has been earned at the period end.

Intangible income by way of donated services is recognised as an incoming resource where the provider of the service has incurred a financial cost. The value of volunteer time is not included in the financial statements.

Fund accounting

Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund.

Unrestricted funds are donations and other incoming resources received or generated for the charitable purposes.

Designated funds are unrestricted funds earmarked by the Council for particular purposes.

Transfers are made from unrestricted to restricted funds to cover any overspends on restricted projects during the period where the cost will not be met by the funder. Transfers between restricted funds and from restricted to unrestricted funds are made with the permission of the funder.

Resources expended

Resources expended are recognised in the period in which they are incurred. Resources expended include attributable VAT which cannot be recovered.

Resources expended are allocated to the particular activity where the cost relates directly to that activity.

Notes 6 and 7 provide the basis of allocating support costs.

Governance costs are the costs associated with the governance arrangements of the charity. These costs relate to constitutional and statutory requirements and with the strategic management of the charity's activities.

NOTES TO THE FINANCIAL STATEMENTS For the year ended 31 July 2014

ACCOUNTING POLICIES (CONTINUED)

The costs of generating funds relate to the costs incurred by the group and charitable company in raising funds for the charitable work.

Grants payable are charged to the Statement of Financial Activities in the period in which the offer is conveyed to the recipient except for conditional offers, when the grant is recognised as expenditure on fulfilment of the conditions.

Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. Freehold Land is not depreciated. The depreciation rates in use are as follows:

Freehold property 2% straight line

Leasehold property for the period of the lease

Plant and equipment 33.3% straight line

Items of equipment are capitalised where the purchase price including VAT, exceeds £2,000. Depreciation costs are allocated to activities on the basis of the use of the related assets in those activities. Assets are reviewed for impairment if circumstances indicate their carrying value may exceed their net realisable value or value in use.

Operating leases

Rentals payable under operating leases, where substantially all the risks and rewards of ownership remain with the lessor, are charged to the statement of financial activities on a straight line basis over the minimum lease term.

Pensions

The parent company operates defined benefit and defined contribution pension schemes. The cost of providing the defined benefit pension and related benefits is charged to the SOFA over the employees' service lives on the basis of a fixed percentage of earnings which is an estimate of the regular cost. Variations from regular cost, arising from periodic actuarial valuations are allocated over the expected remaining service lives of current employees on the basis of a fixed percentage of current and estimated future earnings. Any difference between the charge to the SOFA and the contributions payable to the scheme is shown as an asset or liability in the balance sheet.

Provisions

Dilapidations are valued using a management estimate of the cost to the organisation of works required to repair each property to the required condition at the end of the respective leases.

Total Discontinued Operations	11,303	4,753	3,951	4,753
-	19,310	29,345	11,958	15,094

CSV has utilised donated facilities and services during the year. These mainly comprise office space, utility charges and equipment.

During the year CSV implemented its transition plan to enable the charity to focus on its core values of social action and volunteering from 1 August 2014. As a result of this all Learning activities were closed except for those provided from the Ipswich office which are seen as a key part of the service delivery from that office.

With SST leaving the Group on 31 July 2014 their income and costs have been included as Discontinued Operations.

Consequently, all Social Action and Volunteering (SAV) and the Learning operation at Ipswich are included in the continuing section of the above note. All other Learning operations are included in the discontinued section of the above note.

The total incoming resources from charitable activities by source:

	Group	Group	Charity	Charity
	12 months	16 months	12 months	16 months
	to July 31	to July 31	to July 31	to July 31
	2014	2013	2014	2013
	£'000	£'000	£'000	£'000
Private sector Central government Other public sector (see note below)	1,748	3,700	1,745	3,250
	12,244	18,607	5,371	5,284
	5,318	7,038	4,842	6,560
	19,310	29,345	11,958	15,094

Other public sector includes £303,000 (2013 - £413,000) of donated facilities and services and £581,000 (2013 - £1,050,000) paid to CSV volunteers by outside organisations for weekly allowances, food and travel; the corresponding cost is included in the expenditure of CSV Volunteering Partners. Other public sector also includes local and health authorities, the European Social Fund and other European Funding.

All donated facilities and services were applied towards Social Action and Volunteering projects.

Freehold Plant and

Motor

Total

With Springboard Sunderland Trust leaving the Group on 31 July 2014, their assets have been removed from the Group accounts.

In the view of the Trustees, the aggregate market value of the freehold properties owned by CSV was significantly in excess of the total net book value shown in these accounts.

As part of the significant restricturing CSV sold its HQ properties in both Pentonville Road and Kings Cross Road and its Bristol property, reported in the SOFA. Since the balance sheet date, a further property in Bromley has been sold. CSV is seeking to sell two further London properties to complete the restructuring. The new HQ will be based in Hackney in the one remaining London property owned by CSV.

The proceeds from the sale of three buildings was £6.645m and after taking account of the book values of the properties and sale costs the net proceeds from the sales amounted to £5.621m.

13. SUBSIDIARY AND ASSOCIATE UNDERTAKINGS

The charitable company controls the Springboard charitable companies listed below. They are registered in England and Wales, with the exception of Springboard Scotland Trust, which is registered in Scotland. These subsidiary undertakings form part of the learning directorate of the group. All activities have been consolidated on a line by line basis in the statement of financial activities. A summary of the results of the subsidiary undertakings are shown

Springboard Sunderland (SST)	12 months to July 31 2014	16 months to July 31 2013
	£'000	£'000
Incoming resources	7,190	10,954

	(5,112)	19,453	(17,279)	976	(1,962)

Restricted funds represent balances, none of which are considered to be material individually, in respect of many ongoing projects where funds are shortly to be applied.

Capital Fund represents the carrying value of fixed assets, less any long term loans used to finance them capped to prevent the General fund from going into deficit.

Project development fund represents funds set aside for development of new projects which may be undertaken in the future. At the year end, CSV ceased to set aside funds in this way, and transferred all project development funds to general reserves in recognition of the need to build reserves adequate to sustain 3 months of operation.

20. ANALYSIS OF GROUP NET ASSETS BETWEEN FUNDS

	Restricted funds	Unrestricted funds	Total funds

within two to five years	63	-	84	51
over five years	58	-	-	-
	197	-	443	51

22. PENSION CONTRIBUTIONS

CSV is a member of the London Borough of Islington defined benefit pension scheme. CSV has closed this scheme to new entrants. The employer contributions made to the Scheme (see Note 23) represent pension costs and other post-retirement benefits, and are based on an actuarial valuation of the Scheme, which is revalued each year. For 2014, the contribution rate was 17.8% (2013:14.5%) of pensionable earnings.

23. PENSION COMMITMENTS

CSV is an admitted member of the London Borough of Islington Pension scheme. The disclosures set out below are based on the financial data supplied by Mercers, the Actuary to the London Borough of Islington. The last formal actuarial valuation of the Scheme was carried out at 31 March 2013.

Further details of the Scheme, as required by FRS17, are shown below. The detailed financial information given below is in respect of CSV Group (CSV and its subsidiary undertakings); it is not practicable to identify CSV's proportion of the assets and liabilities separately.

The actuarial valuation of the Scheme, the part relating to CSV Group, was updated at 31 July 2014 by a qualified actuary using assumptions that are consistent with the requirements of FRS17, 'Retirement benefits'.

Investments have been valued for this purpose att market value by the actuary. The major assumptions used for the valuation were:

	2014	2013	2012	2011
	%	%	%	%
Discount rate	4.3	4.5	4.9	5.5
Inflation (CPI)	2.3	2.4	2.5	3.4
Salary increases	4.1	4.2	4.3	4.7
Increases to pension in payment	2.3	2.4	2.5	2.9

23. PENSION COMMITMENTS (CONTINUED)

Amounts for the current and previous periods are as follows:

	2014	2013	2012	2011
	£'000	£'000	£'000	£'000
Funded benefit obligation	(42,397)	(40,928)	(36,143)	(33, 136)
Scheme assets	35,734	31,200	26,345	25,539
Deficit	(6,663)	(9,728)	(9,798)	(7,597)
Experience adjustment on Scheme assets	976	2,453	(879)	3,495
Experience adjustment on Scheme liabilities	264	-		(340)

The past service credit arose as a result of the change from use of RPI to CPI as the measure of inflation.

24. POST BALANCE SHEET EVENT

Since the balance sheet date, a further property (Beacon House, Bromley) with a net book value of £1.1m at 31 July 2014 has been sold for £1.7m.

SPECIFIC ACKNOWLEDGEMENTS

(this does not form part of the audited financial statements - amount received in 2013/14 excluding VAT)
